**VACUUM & GAS FLUSHING TYPE BAND SEALER MACHINE - MODEL BSM**

Vacuum & Nitrogen type Band Sealing Machine with Printing Model BSM-1080-V for vacuuming & sealing small bags or filled pouches of tea, snacks, etc. of all materials. It is designed to Vacuum, Gas-Flush (such as nitrogen or other gases), Seal and Code in one continuous sealing and packing machine. It has a Variable speed conveyor carrying the filled pouches in the Roller Bands that heat seal the pouch, move them forward & release them at the other end. No operator handling is required, thus making the sealing process very easy & fast. Embossing of Exp. Dt., etc. also takes place simultaneously if required. *This sealer is suitable for Chips / Wafer, snacks, biscuits, etc.*

**VIDEO:** <https://youtu.be/X1jlb4zWfbQ>

**INTRODUCTION:**

Just keep feeding the filled pouches from one side of the machine. The Roller Bands will Vacuum / Nitrogen flush the pouch, heat seal your pouch, move them forward & release them at the other end. No operator handling is required, thus making the sealing process very easy & fast. Optionally printing of Exp. Dt., etc. will also take place simultaneously.

**FEATURES:**

- Thicker and wider heating block & cooling block to ensure quick and perfect sealing for all kinds of films
- High-quality wear-resistant solid rubber tensioning knob
- Uni-body, fixed flank, steady gear box
- High-quality poly-formaldehyde gear with high-strength injection molding for running smoother with low noise
- Easy and convenient to replace the sealing belt
- Conveyor can be easily adjusted up/down & forward/back according to the size of the products
- Elegant panel, easy operation, variable speed conveyor
- The filling time is adjustable for the gas filling
- New type of vacuum pump to ensure high degree of vacuum
- "AirTac" filter to prevent small granule, liquid into the vacuum pump
- Equipped with automatic temperature controlling device and a step less speed control system, for uniform heating and adjustable speed.
- Ideal for all types of light to medium weight packets (upto 1-2 kg wt.).
- Adjustable sealing speed of upto 20 packets per minute, which can be adjusted depending on pack size & operator capacity.
- 2 line hot-roll ink printing of Exp. Dt., Mfg. Dt. or Product Name.
- Machine is robust model, with conveyor, which pulls the packets along, as they get sealed.

**SPECIFICATIONS:**

|                   | MODEL                                   | BSM-1080-V  |
|-------------------|---|-------------|
| Function          | Air Suction, Gas Flushing & Bag Sealing |             |
| Power Supply      | 220V/50 Hz                              |             |
| Power Consumption | Motor power (50W)                       | Total=1405W |
|                   | Fan (15W)                               |             |
|                   | Sealing Power: 220Wx2                   |             |
|                   | Vacuum pump: 900W                       |             |
| Sealing Speed     | 0~12 M/min                              |             |
| Sealing Width     | 6~12 mm                                 |             |
| Film Thickness    | 0.02-0.08 mm                            |             |
| Temp Range        | 0-300° C                                |             |
| Conveyor Load     | ≤ 3 Kgs                                 |             |
| Machine size (cm) | 102 x 48 x 107                          |             |
| Machine Weight    | 84 Kg                                   |             |
