**INDUSTRIAL ON-LINE INK JET PRINTER - MODEL IJP - X72**

Colored Touch Screen Large Character On-Line Non-Contact Ink Jet Printer Model IJP-X72, using Japanese Seiko Printhead is a Zero Maintenance, high resolution, THIRTY FIVE line (character height 1 to 72 mm) printer. It has Stainless Steel construction & can be installed on Porous & Non-Porous production line to print B.No., Mfg.Date, Exp.Date, MRP ₹, Time, Serial No. (AGMARK), High Quality Logos, Hindi / Local Language also with option of 90° traverse print on bottles, pouches, labels, cartons, Pipes, etc. It has a large Colored WYSIWYG Touch Screen Display & complete keyboard for setting all parameters. It can also accept data from computer via. USB connection and is capable of accepting variable / random data from Excel sheets or from external on-line sources like Weighing Scales, PLCs, etc. It can print variable High Resolution, Scannable 1D / 2D (Datamatrix / QR) Barcodes with changing/serial numbers as required for Primary / Secondary & Tertiary Packaging in the Pharmaceutical Industry, widely used in a variety of traceability system and product classification / identification purposes with support for protocol customization. It also has the provision of connecting up to TWO 72 mm Seiko Print-Heads simultaneously with different data from each head or for a large 140 mm (5.5") height print (Model IJP-X140). Optional Model IJP-X72-UV available with Heater & UV Curing LED unit using UV Curable Ink which is permanent & cannot be removed with Thinner also.

**INTRODUCTION:**

These coders are ideal for On-Line High Speed Coding on packaging machines or bottles moving on conveyor or Winder / Rewinder systems.

The 1 to 8 line message to be printed is easily composed on its Colored Touch Screen Graphic display with a combination of small, medium or large characters along with LOGOs, Objects & Scannable Bar Codes.

The Inking system consists of disposable pre-mix ink cartridge using fast drying & indelible solvent-based inks (for porous and non-porous surfaces) which are push fitted into its slot to immediately start printing.

The small print head is then placed aligned with the object or substrate & whenever the product sensor gives a signal, the whole message is spray-printed onto the substrate while it is in motion without touching it.

**FEATURES:**

- Graphic 4" WYSIWYG Colored backlit LCD Touch Screen Display with Real time clock and calendar, expiry date, Scannable Bar Codes, LOGOs, Serial nos. (Counter), with 9 levels of Boldersation, message reverse or invert print & storage of 256 messages of 1 to 8 lines each of 120 characters per line with facility for password lock.
- This printer is Fully Electronic without CORE System & does not have any air pump, viscosity control unit, filters, etc. & so there is no maintenance required (No AMC). It does not require separate make up or wash solution as everything is included in the disposable ink cartridges making it very user friendly for the Operator. The printing cost is only about 2 paise per impression.
