AUTOMATIC FORM-FILL-SEAL MACHINES - MODEL FFS

AIMS present various types of Filling machines for filling liquid / paste / powder into pouches. Machines that form the package, fill it with a wet or dry product, and seal it shut are known as Form-Fill-Seal machines. Flexible film is used in most FFS packing machine to create the primary kit, such as a bag or pouch.

Automatic High Speed Powder Packing Machine Model FFS-100/1000PG are ideal for packing of **free flow powders** and granules like tea, food, seeds, fruit, grain shape chemicals and pharmaceuticals, micro and small components such as general non-sticky solid materials, salt, sugar, pepper and spices. These machines ensure hygienic packing of the product along with the focus on keeping moisture away from the product for retaining the free flow texture of the same. Our machines are automatic and equipped with a high accuracy weighing scale. These machines often feature intermediate perforation for consecutive pouches, as well as the ability to cut strips after a predetermined number of pouches using a digital auto-cut feature. **This is useful for filling of all types of Powders & granules in Pouches or Bags.**

Sealing	Center Seal (Optional 3 SIDE seal)
Pouch size	0-80 MM (W) and 0-150 MM (L) HEIGHT
Range	For 10 to 100 grams / 20 to 1000 grams
Out put in ppm (Pouches per min.)	4 to 18 ppm, depending upon product characteristics, fill weight, bulk density of the product, it's flow properties, kind, quality of laminate.
Packaging material	Any heat sealing films (laminates) 0.5mm to 0.8mm
Drive	SINGLE PHASE MOTOR
Registration system	Optional Photocell control using optical scanning head sensor & control unit to drive 1/8 HP forward reverse correction motors.
Accuracy	+/- 2% depending upon product and its flow characteristics.
Roll diameter	Maximum 14 inches.
Core ID	76 MM ID.
Net wt.	70 Kg. approximately.
Mounting	On wheels.
Over all dimensions	430 mm(L) x 510(W) mm x 1400 mm(H)

Automatic High Speed Liquid Packing Machine Model FFS-100L are ideal for packing of free flow liquids like chemicals and pharmaceuticals, oils, fragrances, etc. These machines ensure hygienic packing of the product along with the focus on keeping moisture away from the product for retaining the free flow texture of the same. Our machines are automatic and equipped with a high accuracy weighing scale. Advanced innovative technology is used in designing the machines to minimize film overlap to reduce film consumption thereby making them cost effective.

Sealing	Center Seal (Optional 3 SIDE seal)
Pouch size	0-80 MM (W) and 0-150 MM (L) HEIGHT
Range	For 10 to 100 ml.
Out put in ppm (Pouches per min.)	4 to 18 ppm, depending upon product characteristics, fill weight, bulk density of the product, it's flow properties, kind, quality of laminate.
Core ID	76 MM ID.
Net wt.	55 Kg. approximately.
Over all dimensions	430 mm(L) x 510(W) mm x 1400 mm(H)

VIDEO: <https://youtu.be/OUb05bKVeyA>

Automatic High Speed Paste Packing Machine with stirrer Model FFS-100PL are ideal for packing of liquids like chemicals and pharmaceuticals, paste, gel, etc. These machines ensure hygienic packing of the product along with the focus on keeping moisture away from the product for retaining the free flow texture of the same. Our machines are automatic and equipped with a high accuracy weighing scale. Advanced innovative technology is used in designing the machines to minimize film overlap to reduce film consumption thereby making them cost effective.

Same machine as above with **STIRRER** for constant stirring also available.

Sealing	Center Seal (Optional 3 SIDE seal)
Pouch size	0-125 MM (W) and 0-150 MM (L) HEIGHT
Range	For 3 to 100 grams (Optional 5 to 250 grams)
Out put in ppm (Pouches per min)	4 to 18 ppm, depending upon product characteristics, fill weight, bulk density of the product, it's flow properties, kind, quality of laminate.
Packaging material	Any heat sealing films (laminates) 0.5mm to 0.8mm
Accuracy	+/- 2% depending upon product and its flow characteristics.
Net wt.	90 Kg. approximately.
Over all dimensions	940 mm(L) x 570(W) mm x 1610 mm(H)
